TABLE POWER

laser tube	Z2 Longlife Laser Tube 10.000 jam			laser tube	Z6 Longlife Laser Tube 10.000 jam				
material	akrilik	*MDF	*triplek	material	akrilik	*MDF	*triplek	stainless steel	carbon steel
ketebalan potong	20 mm	8 mm	14 mm	ketebalan potong	25 mm	15 mm	22 mm	1,5 mm	1,5 mm
kekuatan rating	80 Watt			kekuatan rating	130 Watt				
kekuatan maksimal	100 Watt			kekuatan maksimal	160 Watt				
panjang	1200 mm			panjang	1650 mm				
diameter	80 mm			diameter	80 mm				

laser tube	Z4 Longlife Laser Tube 10.000 jam			laser tube	Z8 Longlife Laser Tube 10.000 jam				
material	akrilik	*MDF	*triplek	material	akrilik	*MDF	*triplek	stainless steel	carbon steel
ketebalan potong	20 mm	8 mm	18 mm	ketebalan potong	30 mm	18 mm	22 mm	1,5 mm	1,5 mm
kekuatan rating	100 Watt			kekuatan rating	150 Watt				
kekuatan maksimal	130 Watt			kekuatan maksimal	180 Watt				
panjang	1400 mm			panjang	1850 mm				
diameter	80 mm			diameter	80 mm

LASER CUTTING

LC6040

Mini area laser cutting for non-metal material

LASER CUTTING Non-Metal

LG5030 • LG6040

LASER CUTTING

Mini area
Non-metal

Mesin tipe mini LG5030 dan LG6040 adalah solusi ekonomis pemotongan dan penggraviran laser. Didesain agar mampu menghasilkan potongan dan grafir dengan kualitas yang setara dengan mesin besar seperti LC6090. Terutama tipe LG5030 yang dilengkapi dengan tabung long life tipe 80w yang membuatnya bisa memotong sedalam dan secepat LC6090, plus autofocus system sebagai standar, memori persisten untuk melanjutkan pengerjaan ketika terjadi kehilangan listrik, dan optional sistem anti gosong membuat mesin ini sangat baik dalam value for money.

Mesin seri mini mampu memotong material organik seperti akrilik, kayu, MDF, tripek, kulit, kain, dan material non logam lainnya.

The LG5030 and LG6040 is an economical solution to laser cutting and engraving. These machines are designed to make cutting and engraving with comparable quality to larger machine type such as the LC 6090.

Especially the LG 5030 which is equipped with 80w longlife laser tube which is the very same laser source used by LC 6090. Thus making the LG 5030 can cut as deep and as fast as the LC 6090. Plus autofocus system as standard, persistent memory system to recover the working state of machine in case of blackout and optional burn free technology made this machine a real bang for the buck.

All mini laser cutting are capable of cutting organic material such as acrylic, wood, particle board, leather, fabrics and many more non metal applications.

pengolihan sentral centralised lubrication	tidak tersedia not available	
optik optics	lensa Amerika dengan auto fokus American lens with auto focus	
tabung longlife longlife tube	standard standard	
anti gosong antiburn	optional optional	

Why PT Golden Sun Indonesia?

- A two-year warranty for the machine and parts.
- A six-month warranty for the tube - the longest on the market
- Cloud driver backup service
